410	102.5	0.05
190	47.5	0.375

Highest Total Sales	Lowest Total Sales
565	190

Products

T-Shirts outperformed all other products, generating the highest total sales over the 4-week span with steady weekly growth. Although Jackets had the lowest overall numbers, they showed consistent improvement each week, hinting at untapped potential. Week 4 showed the strongest overall performance, suggesting that external factors—like marketing campaigns or seasonal demand—may have boosted sales during that time.
